Njena prednost je, da lahko poleg mehanske zaščite, s svojo visoko stopnjo upogljivosti in raztegljivosti odlično spremlja potek kablov in morebitne spremembe presekov. Rez na ustrezno dolžino izvedemo s segretim nožem. Na tak način se rez ne bo zavihal in razparal. Tkanina ne veže nase ne vročine, ne vlage.
